8 U.S. DEPARTMENT OF JUSTICE, et al.,
9 Defendants.

10 Case No.[18-cv-02137-JSC](#)
11
12

13 **ORDER RE: DEFENDANTS' MOTION
14 TO DISMISS**

15 Re: Dkt. No. 40
16
17

18 Plaintiff Muslim Advocates sues Defendants the U.S. Department of Justice ("DOJ") and
19 the U.S. Department of Homeland Security ("DHS") (collectively, "Defendants") under the
20 Administrative Procedure Act ("APA"), 5 U.S.C. §§ 701 *et seq*, for violation of the Information
21 Quality Act, 44 U.S.C. § 3516 ("IQA"). (Dkt. No. 37).¹ Now before the Court is Defendants'
22 motion to dismiss the first amended complaint ("FAC") pursuant to Federal Rule of Civil
23 Procedure 12(b)(1) for lack of subject matter jurisdiction and, alternatively, pursuant to Rule
24 12(b)(6) for failure to state a claim upon which relief may be granted.² (Dkt. No. 40.) After
25 careful consideration of the parties' briefing, and having had the benefit of oral argument on June
26 20, 2019, the Court GRANTS Defendants' Rule 12(b)(6) motion because Plaintiff's claim
27 premised on alleged violations of the IQA is not subject to judicial review under the APA.
28

1 Record citations are to material in the Electronic Case File ("ECF"); pinpoint citations are to the ECF-generated page numbers at the top of the documents.

2 All parties have consented to the jurisdiction of a magistrate judge pursuant to 28 U.S.C. § 636(c). (Dkt. Nos.

1

BACKGROUND

2

I. Relevant Statutory and Factual Background³

3

A. The Information Quality Act and Implementing Guidelines

4

The IQA “was included as a brief note to the Consolidated Appropriations Act of 2001, Pub. L. No. 106-554, 114 Stat. 2763 (2000),” (codified at 44 U.S.C. 3516 note (Paperwork Reduction Act Guidelines)). *Harkonen v. U.S. Dep’t of Justice*, 800 F.3d 1143, 1145 (9th Cir. 2015). The statute directs the Office of Management and Budget (“OMB”) to “issue guidelines . . . that provide policy and procedural guidance to Federal agencies for ensuring and maximizing the quality, objectivity, utility, and integrity of information (including statistical information) disseminated by Federal agencies in fulfillment of the purposes and provisions of . . . the Paperwork Reduction Act.” *Id.* (quoting 44 U.S.C. 3516 note). The IQA’s focus “is on the quality of information shared by federal agencies, and on ensuring broad access to information.” *Id.* at 1148.

12

13

The IQA directs that the content of OMB’s guidelines shall:

14

- (1) apply to the sharing by Federal agencies of, and access to, information disseminated by Federal agencies; and
- (2) Require that each Federal agency to which the guidelines apply—
 - (A) issue guidelines ensuring and maximizing the quality,

15

16

17

18

19

³ Courts ordinarily do not look beyond the four corners of the complaint when considering a motion to dismiss. *Lee v. City of Los Angeles*, 250 F.3d 668, 688 (9th Cir. 2001). “A court may, however, consider certain materials—documents attached to the complaint, documents incorporated by reference in the complaint, or matters of judicial notice—without converting the motion to dismiss into a motion for summary judgment.” *United States v. Ritchie*, 342 F.3d 903, 908 (9th Cir. 2003). Under Federal Rule of Evidence 201(b), “court[s] may judicially notice a fact that is not subject to reasonable dispute because it: (1) is generally known within the trial court’s territorial jurisdiction; or (2) can be accurately and readily determined from sources whose accuracy cannot reasonably be questioned.” Here, the complaint includes as exhibits correspondence to and from DOJ and DHS regarding the government report at issue and Plaintiff’s subsequent request for correction of that report under the IQA. (Dkt. No. 37, Exs. A-N.) Thus, those documents are properly before the Court. Defendants request that the Court also “take judicial notice of the Initial Section 11 Report, which is available on the DHS website,” and cited in the FAC. (Dkt. No. 40 at 14 n.1 (citing Dkt. No. 37 at ¶ 38 n.8).) Because the Section 11 Report is cited in the complaint and indeed forms the basis for Plaintiff’s APA claim, it is properly before the Court under the incorporation-by-reference doctrine. Further, the Section 11 Report is judicially noticeable under Rule 201(b). See *Barron v. Reich*, 13 F.3d 1370, 1377 (9th Cir. 1994) (noting that district courts may take judicial notice of “[r]ecords and reports of administrative bodies”).

objectivity, utility, and integrity of information (including statistical information) disseminated by the agency, by not later than 1 year after the date of issuance of the guidelines under subsection (a);

(B) establish administrative mechanisms allowing affected persons to seek and obtain correction of information maintained and disseminated by the agency that does not comply with the guidelines issued under subsection (a); and

(C) Report periodically to the director—

(i) the number and nature of complaints received by the agency regarding the accuracy of information disseminated by the agency; and

(ii) how such complaints were handled by the agency

44 U.S.C. 3516 note. The IQA does not expressly provide for judicial review of information disseminated by Federal agencies, or otherwise provide a private right of action.

1. OMB Guidelines

OMB issued its final guidelines pursuant to the IQA in February 22, 2002. *See Guidelines for Ensuring and Maximizing the Quality, Objectivity, Utility, and Integrity of Information Disseminated by Federal Agencies*, 67 Fed. Reg. 8452 (Feb. 22, 2002). The guidelines set forth four central duties that agencies must undertake: (1) “adopt a basic standard of quality (including objectivity, utility, and integrity)” that is “to be ensured and established at levels appropriate to the nature and timeliness of the information . . . disseminated,” as well as specific quality standards “for the various categories of information”; (2) develop a quality review process to ensure the “objectivity, utility, and integrity[] of information before it is disseminated”; (3) “establish administrative mechanisms allowing affected persons to seek and obtain, where appropriate, timely correction of information maintained and disseminated by the agency that does not comply with OMB or agency guidelines,” as well as “an administrative appeal process” for “requests for reconsideration” of agency decisions; and (4) submit to OMB a report detailing the agency’s information quality guidelines and thereafter submit a yearly report regarding any complaints the agency receives related to its compliance with OMB’s Guidelines. 67 Fed. Reg. at 8458-59.

11

11

1 **2. DOJ Guidelines**

2 DOJ issued its guidelines (“DOJ Guidelines”) in October 2002 in response to OMB’s
3 directive. *See* U.S. Dep’t of Justice, DOJ Information Quality Guidelines,
4 <https://www.justice.gov/information-quality>. The DOJ Guidelines track the language of the OMB
5 Guidelines, stating, in pertinent part that they “will adhere to the basic standards cited in the final
6 OMB Guidelines and focus on the following areas”: (1) “adopt[ing] a basic standard of quality
7 (including objectivity, utility, and integrity); (2) develop[ing] a process for reviewing the quality .
8 . . of information before it is disseminated; and (3) establish[ing] administrative mechanisms
9 allowing affected persons (individual or entity that may use, benefit, or be harmed by the
10 disseminated information at issue) to seek and obtain, where appropriate, timely correction of
11 information maintained and disseminated by the agency that does not comply with OMB or
12 agency guidelines.” *Id.*

13 The DOJ Guidelines specify that those requesting correction of information “bear the
14 ‘burden of proof’ with respect to the necessity for correction as well as with respect to the type of
15 correction they seek.” *Id.* DOJ will review such requests, and “[a]fter it has completed its review,
16 DOJ will determine whether a correction is warranted, and, if so, what corrective action it will
17 take.” *Id.* Further:

18 Any corrective action will be determined by the nature and timeliness
19 of the information involved and such factors as the significance of the
20 error on the use of the information and the magnitude of the error.
DOJ is not required to change, or in any way alter, the content or
status of information simply based on the receipt of a request for
correction.

22 *Id.* The DOJ Guidelines provide that the agency “will normally respond to requests for correction
23 of information within 60 calendar days of receipt,” and “will inform the requester that more time
24 is required” if necessary. *Id.* If a petitioner disagrees with the agency’s determination, it can file a
25 request for reconsideration; DOJ will respond to such requests “within 45 calendar days of
26 receipt.” *Id.*

27 As to their scope, the DOJ Guidelines expressly state:

28 These guidelines are not a regulation. They are not legally enforceable

1 and do not create any legal rights or impose any legally binding
 2 requirements or obligations on the agency or the public. Nothing in
 3 these guidelines affects any otherwise available judicial review of
 4 agency action.

5 *Id.*

6 **3. DHS Guidelines**

7 The DHS guidelines (“DHS Guidelines”) became effective on March 18, 2011. *See* U.S.
 8 Dep’t of Homeland Security, Information Quality Guidelines 1 (2011),
 9 <https://www.dhs.gov/sites/default/files/publications/dhs-iq-guidelines-fy2011.pdf>. The DHS
 10 Guidelines track the DOJ Guidelines in that they “adhere to the basic standards cited in the OMB
 11 guidelines and focus on the [same basic] areas.”⁴ *Id.* at 2. The DHS Guidelines further track the
 12 DOJ Guidelines regarding requests for correction; specifically, they provide that: (1) the burden is
 13 on the petitioner to demonstrate that the information does not comply with the DHS or OMB
 14 Guidelines; (2) DHS Components “should respond to requests for correction” within 60 days of
 15 receipt, and notify the petitioner if the request “requires an extended period of time for
 16 processing”; and (3) DHS components “should develop an administrative appeals process”
 17 regarding requests for correction and respond to such appeals within 60 days. *Id.* at 6, 8. Further:
 18

19 In making determinations of whether or not to correct information,
 20 [DHS] Components may reject claims made in bad faith or without
 21 justification. [DHS] Components need undertake only the degree of
 22 correction that they conclude is appropriate for the nature and
 23 timeliness of the information involved and explain such practices in
 24 their annual fiscal year reports to DHS.

25 *Id.* at 6. Also like the DOJ Guidelines, the DHS Guidelines expressly limit their enforceability:

26 The guidelines are not intended to be, and should not be construed as,
 27 legally binding regulations or mandates. These guidelines are
 28 intended only to improve the internal management of DHS and,
 therefore, are not legally enforceable and do not create any legal rights
 or impose any legally binding requirements or obligations on the

29 ⁴ As with the DOJ Guidelines, the stated focus of the DHS Guidelines is on: (1) “a basic standard
 30 of quality (including objectivity, utility, and integrity”); (2) developing “a process for reviewing
 31 the quality . . . of information before it is disseminated”; and (3) establish[ing] administrative
 32 mechanisms allowing affected persons (individual or entity that may use, benefit, or be harmed by
 33 the disseminated information at issue) to seek and obtain, where appropriate, timely correction of
 34 information maintained and disseminated by the agency that does not comply with OMB or
 35 agency guidelines.” *See* U.S. Dep’t of Homeland Security, Information Quality Guidelines 2
 36 (2011), <https://www.dhs.gov/sites/default/files/publications/dhs-iq-guidelines-fy2011.pdf>.

1 agency or the public. Nothing in these guidelines affects any
2 available judicial review of agency action.

3 *Id.*

4 **B. Executive Order No. 13780**

5 On March 6, 2017, the President of the United States signed Executive Order No. 13780,
6 Protecting the Nation from Foreign Terrorist Entry into the United States. 82 Fed. Reg. 13209
7 (Mar. 6, 2017). The order “temporarily restricted the entry (with case-by-case waivers) of foreign
8 nationals from six countries”—Iran, Libya, Somalia, Sudan, Syria, and Yemen—“because each ‘is
9 a state sponsor of terrorism, has been significantly compromised by terrorist organizations, or
10 contains active conflict zones.’” *Trump v. Hawaii*, 138 S. Ct. 2392, 2404 (2018) (quoting Exec.
11 Order No. 13780, § 1(d), 82 Fed. Reg. at 13210). Section 11 of the order directed “the Secretary
12 of Homeland Security, in consultation with the Attorney General,” to “collect and make publicly
13 available the following information” for purposes of public transparency:

- 14 (i) information regarding the number of foreign nationals in the
15 United States who have been charged with terrorism-related offenses
16 while in the United States; convicted of terrorism-related offenses
17 while in the United States; or removed from the United States based
18 on terrorism-related activity, affiliation with or provision of material
19 support to a terrorism-related organization, or any other national-
20 security-related reasons;
- 21 (ii) information regarding the number of foreign nationals in the
22 United States who have been radicalized after entry into the United
23 States and who have engaged in terrorism-related acts, or who have
24 provided material support to terrorism-related organizations in
25 countries that pose a threat to the United States;
- 26 (iii) information regarding the number and types of acts of gender-
27 based violence against women, including so-called “honor killings,”
28 in the United States by foreign nationals; and
- 29 (iv) any other information relevant to public safety and security as
30 determined by the Secretary of Homeland Security or the Attorney
31 General, including information on the immigration status of foreign
32 nationals charged with major offenses.

33 Exec. Order No. 13780, § 11, 82 Fed. Reg. at 13217.

34 **C. The Section 11 Report**

35 As directed, in January 2018 DOJ and DHS issued a joint report responsive to Section 11
36 of the Executive Order. *See* U.S. Dep’t of Justice & U.S. Dep’t of Homeland Sec., Executive

1 Order 13780: Protecting the Nation From Foreign Terrorist Entry Into the United States, Initial
2 Section 11 Report (Jan. 2018) (the “Report”).⁵ The Report notes, in pertinent part:

3 [S]ubsequent to the issuance of Executive Order 13780, the
4 Department of Homeland Security (DHS) and the Department of
5 Justice (DOJ) worked collaboratively to provide information
6 responsive to the requirements of Section 11. Unless specified
7 otherwise, this initial report includes information for the period from
8 September 11, 2001 until the date of issuance. Notably, however,
9 because of previous information collection and reporting practices of
DHS and DOJ, some of the information provided in this initial report
does not capture the full spectrum of statistics envisioned by
Executive Order 13780. DHS and DOJ will endeavor to provide
additional information in future reports issued pursuant to the
requirements of Executive Order 13780.

10 *Id.* at 1. The Report addresses the four previously-discussed substantive categories of information
11 outlined in the Executive Order. *See id.* at 2-10.

12 **D. Plaintiff’s Request for Correction**

13 Plaintiff petitioned DOJ and DHS for correction of the Report on January 29, 2018. (Dkt.
14 Nos. 37 at ¶ 85 & 37-2, Ex. B.) The petition cites five categories of information as deliberately
15 misleading and biased and thus in violation of the IQA. First:

16 Section 11 directed the Departments to provide information related to
17 foreign nations and terrorism-related offenses, which the Executive
18 Order claimed would be used to inform the country’s immigration
19 policy. Instead, the Report provided information regarding foreign-
born individuals rather than foreign nationals, which allows it to
attribute 73 percent of international terrorism-related offenses to
20 individuals who the Departments apparently perceive as foreign,
despite their American citizenship.

21 (Dkt. No. 37-2, Ex. B at 7.) Second, “[t]he Report’s substitution of international terrorism for all
22 terrorism misleadingly ignores domestic terrorism, artificially inflating the proportion of terrorist
23 incidents committed by foreign nationals.” (*Id.* at 8.) Third, “[t]he Report’s inclusion of
24 individuals who committed terrorism overseas and whose only apparent tie to the United States is
25 extradition to the United States for prosecution.” (*Id.* at 9.) Fourth, “[t]he Report’s examples of

26
27 5
28 <https://www.dhs.gov/sites/default/files/publications/Executive%20Order%2013780%20Section%2011%20Report%20-%20Final.pdf>

1 foreign nationals charged with or convicted of terrorism-related offenses are misleading and
2 perpetuate the Administration’s discriminatory narrative that Muslims are likely to commit acts of
3 terrorism.” (*Id.* at 10.) Finally, “[t]he Report’s information relating to gender-based violence is
4 misleading and perpetuates anti-Muslim stereotypes.” (*Id.* at 11.) Plaintiff asserted that it was an
5 “affected person” under the terms of the agency guidelines, and requested that DOJ and DHS
6 retract the Report, and if necessary, publish a revised Report correcting the deficiencies noted by
7 Plaintiff. (*Id.* at 12-13.)

8 DOJ and DHS separately responded in writing to Plaintiff’s petition on June 15, 2018, and
9 June 19, 2018, respectively, notifying Plaintiff that its request for correction was under review.
10 (Dkt. Nos. 37-3, Ex. C & 37-4, Ex. D.) DOJ issued its denial on July 31, 2018, addressing each of
11 Plaintiff’s five categories of concern, “determin[ing] that there is no inconsistency with the IQA
12 Guidelines,” and “conclud[ing] that neither retraction nor correction of [the Report] is required
13 under the IQA Guidelines.” (Dkt. No. 37-5, Ex. E at 4.) The denial letter notes Plaintiff’s right to
14 request reconsideration. (*Id.*)

15 DHS denied Plaintiff’s request for correction by letter dated August 1, 2018. (Dkt. No. 37-
16 6, Ex. F.) The letter asserts in part that Plaintiff based “much of” its request for correction “not on
17 the data in the Report itself, but on [Plaintiff’s] differing interpretation of that data, which do[es]
18 not warrant correction under the Department’s IQA guidelines.” (*Id.* at 3.) Thus, DHS
19 “conclude[d] that neither retraction nor correction of information in the [Report] is warranted.”
20 (*Id.*) DHS noted, however, that it would “take the points raised in [Plaintiff’s] request into
21 consideration in the preparation of future reports.” (*Id.*) The letter further notes Plaintiff’s “right
22 to an administrative appeal.” (*Id.* at 4.)

23 **E. Plaintiff’s Requests for Reconsideration**

24 On September 13, 2018, Plaintiff filed separate but identical requests for reconsideration of
25 the DOJ and DHS denials, asserting that “[t]he Report must be corrected because the information
26 it presents inflates the proportion of terrorist events that it can attribute to immigrants, especially
27 Muslim men,” and restating that the five previously-discussed categories information are
28 misleading and do not meet IQA standards. (Dkt. Nos. 37-7, Ex. G at 2-13 & 37-8, Ex. H at 2-

1 13.) DOJ and DHS issued interim responses on October 24, 2018, and November 7, 2018,
2 respectively, indicating that Plaintiff's request for reconsideration was under review. (Dkt. Nos.
3 37-9, Ex. I & 37-11, Ex. K.)

4 DOJ denied Plaintiff's request for reconsideration by letter dated December 21, 2018.
5 (Dkt. No. 37-10, Ex. J.) DOJ's denial letter addresses each of Plaintiff's "five general areas of
6 concern regarding the Report," and states, in pertinent part:

7 [T]he Department concludes on reconsideration that information in
8 the Report could be criticized by some readers, consistent with some
9 of the concerns voiced in your Request for Reconsideration.
10 However, the Department also concludes that it was sufficiently
11 transparent in its presentation of information, and as a result, the
Report should not be withdrawn or corrected. Working closely with
DHS, the Department will consider IQA principles in issuing future
reports under Section 11 of Executive Order 13780 to better present
such information to the public.

12 (*Id.* at 2.)

13 On December 19, 2018, DHS notified Plaintiff that DHS needed additional time to "review
14 and respond" to Plaintiff's request for reconsideration. (Dkt. No. 37-12, Ex. L at 2.) DHS notified
15 Plaintiff on January 31, 2019 that further time was required due to a lapse in appropriations. (Dkt.
16 No. 37-13, Ex. M at 2.) On February 14, 2019, DHS denied Plaintiff's request for reconsideration.
17 (Dkt. No. 37-14, Ex. N.) DHS's denial letter addresses Plaintiff's five areas of concern, and
18 states, in pertinent part:

19 The Department has conducted an independent review of your
20 Request for Reconsideration and concludes that, while it will take into
21 consideration in future Section 11 Reports those points raised in both
22 your Requests for Correction and Reconsideration, the Section 11
Report was sufficiently transparent in its presentation of the
information and meets the IQA guidelines. It therefore declines to
withdraw or correct it.

23 (*Id.* at 2.)

24 **II. Complaint Allegations and Requested Relief**

25 Plaintiff is a civil rights organization located in Washington, D.C. (Dkt. No. 37 at ¶ 12
26 n.1.) It "promotes freedom and justice for Americans of all faiths, with a particular focus on
27 issues impacting Muslim communities." (*Id.*) In carrying out its mission, Plaintiff "engages in
28 civil rights litigation, policy advocacy, and public education to fight inaccurate stereotypes about

1 Muslims and other immigrants.” (*Id.*)

2 The gravamen of the FAC is that the Report “fails the objectivity and utility requirements”
3 of “[t]he IQA, OMB’s IQA Guidelines, and DOJ and DHS’s IQA Guidelines,” and instead
4 “presents information in a deceptive, misleading, and incomplete manner, and in so doing,
5 misrepresents the actual terror threat to the country, artificially inflating the threat that immigrants
6 and Muslims pose to the United States.”⁶ (*Id.* at ¶¶ 108, 110; *see also id.* at ¶¶ 4-7, 41-84.) As a
7 result, “Defendants’ ongoing dissemination of the Report following their denials of Plaintiff[’s]
8 Petition and Appeal Petitions violates the IQA and its implementing Guidelines, and is therefore
9 arbitrary, capricious, an abuse of discretion, not in accordance with law, without observance of
10 procedure required by law, and otherwise violative of the APA, 5 U.S.C. § 706(2).” (*Id.* at ¶ 111.)

11 Plaintiff seeks the following relief: (1) declarations “that the Report disseminates
12 information that fails the standard of quality required of federal agencies,” and “that Defendants
13 violated the IQA, its implementing Guidelines, and the APA”; (2) an order requiring “Defendants
14 to expressly retract or correct the Report and to cease dissemination of the Report”; (3) attorneys’
15 fees and costs of suit; and (4) “such other relief as the Court may deem just and proper.” (*Id.* at
16 32.)

17 III. Procedural History

18 Plaintiff filed its original complaint on April 9, 2018, asserting a claim under the APA for
19 violation of the IQA. (Dkt. No. 1.) Defendants moved to dismiss the complaint on the same
20 grounds asserted in the instant motion. (*See Dkt. No. 21.*) The parties then filed a stipulation to
21 stay the case pending Plaintiff’s administrative appeals, (Dkt. No. 25), which the Court granted,
22 (Dkt. No. 26). Plaintiff filed the FAC after completing the administrative appeals process, (Dkt.
23

24 _____
25 ⁶ Although the FAC contains allegations regarding Defendants’ processing of Plaintiff’s IQA
26 requests for correction and reconsideration, (*see Dkt. No. ¶¶ 9, 90, 92-93, 99-105* (alleging
27 inadequate or tardy responses to Plaintiff’s petitions)), the thrust of Plaintiff’s claim concerns the
content of the Report, (*see id.* at ¶ 11 (noting that despite Plaintiff’s IQA petitions, “Defendants
declined to retract or correct the Report, and instead continue to disseminate it. In doing so they
violate the IQA and its implementing Guidelines.”)). Plaintiff’s requested relief further indicates
that Plaintiff’s claim is based on the content of the Report and not inadequate processing of
Plaintiff’s petitions, (*see id.* at 32 (seeking injunctive relief requiring “Defendants to expressly
retract or correct the Report and to cease dissemination of the Report”)).

1 No. 37), and Defendants filed the instant motion to dismiss, (Dkt. No. 40). The motion is fully
2 briefed, (*see* Dkt. Nos. 41 & 44), and the Court heard oral argument on June 20, 2019.

3 DISCUSSION

4 Defendants argue that dismissal is warranted pursuant to Rule 12(b)(1) for lack of subject
5 matter jurisdiction because: (1) Plaintiff lacks standing; specifically, Plaintiff fails to satisfy the
6 injury-in-fact prong; (2) the IQA does not confer any legal rights and thus Plaintiff does not have a
7 right of action under the statute; and (3) Plaintiff's claim is not subject to judicial review under the
8 APA. (*See* Dkt. No. 40 at 22-30.) Defendants argue in the alternative that dismissal is warranted
9 under Rule 12(b)(6) because Plaintiff fails to state a claim for relief under the APA. The Court
10 addresses dismissal only in the context of Rule 12(b)(6) because Defendants' standing arguments
11 are intertwined with their 12(b)(6) arguments, and even if Plaintiff was to satisfy Article III
12 standing requirements, Plaintiff fails to state a claim under the APA.

13 A. Plaintiff Fails to State a Claim Under the APA

14 There is no dispute that the IQA does not provide a private right of action; thus, Plaintiff
15 brings its challenge under the APA. *See Family Farm All. v. Salazar*, 749 F. Supp. 2d 1083, 1090-
16 91 (E.D. Cal. 2010) (“A party challenging an administrative agency’s compliance with a
17 substantive statute that lacks an internal private right of action must seek judicial review under the
18 APA.”) (citing *Lujan*, 497 U.S. at 882). Pursuant to the APA, a plaintiff may seek judicial review
19 of agency action that is either “made reviewable by statute” or constitutes “final agency action for
20 which there is no other adequate remedy in a court.” 5 U.S.C. § 704. Defendants assert that there
21 is no judicial review of agency IQA decisions under the APA because: (1) the IQA precludes
22 judicial review; (2) IQA determinations are “committed to agency discretion”; and (3) such
23 determinations do not constitute final agency action for APA purposes. (Dkt. No. 40 at 27-30.)

24 1. Judicial Review is Precluded under 5 U.S.C. § 701(a)(2)

25 Judicial review is precluded under the APA when the “challenged agency action is
26 committed to agency discretion by law.” 5 U.S.C. § 701(a)(2). In general, Section 701(a)(2)
27 precludes judicial review “if the statute is drawn so that a court would have no meaningful
28 standard against which to judge the agency’s exercise of discretion.” *Heckler v. Chaney*, 470 U.S.

1 812, 830 (1985). Thus, courts must “consider the language of the statute and whether the general
2 purposes of the statute would be endangered by judicial review.” *Pinnacle Armor, Inc. v. United*
3 *States*, 648 F.3d 708, 719 (9th Cir. 2011) (internal quotation marks and citation omitted).

4 Here, neither the IQA nor its implementing guidelines provide judicially manageable
5 standards “against which to judge an agency’s exercise of discretion” in deciding whether to grant
6 an IQA request for correction. *See Heckler*, 470 U.S. at 830. The IQA itself directs OMB to issue
7 guidelines to Federal agencies to aid them in ensuring “the quality, objectivity, utility, and
8 integrity” of disseminated information. 44 U.S.C. § 3516 note. The IQA provides no substantive
9 standards as to those terms. The statute further directs OMB to require Federal agencies to issue
10 their own guidelines that comply with OMB’s guidelines and set forth agency-specific
11 “administrative mechanisms allowing affected persons to seek and obtain correction of
12 information maintained and disseminated by the agency that does not comply with the [OMB]
13 guidelines.” *Id.* Again, the statute itself does not provide standards regarding those administrative
14 mechanisms.

15 Pursuant to the IQA, the OMB Guidelines direct agencies, in pertinent part to “establish
16 administrative mechanisms allowing affected persons to seek and obtain, *where appropriate*,
17 timely correction of information maintained and disseminated by the agency that does not comply
18 with OMB or agency guidelines.” 67 Fed. Reg. at 8459 (emphasis added). Further, the OMB
19 Guidelines provide that the agencies’ “administrative mechanisms shall be *flexible*, [and]
20 appropriate to the nature and timeliness of the disseminated information.” *Id.* (emphasis added).
21 As to the IQA request determination, the Guidelines state:

22 Agencies, in making their determination of whether or not to correct
23 information, may reject claims made in bad faith or without
24 justification, and *are required to undertake only the degree of
correction that they conclude is appropriate for the nature and
timeliness of the information involved*.

25 *Id.* at 8458 (emphasis added). The OMB Guidelines’ use of discretionary language (i.e., “where
26 appropriate,” “flexible,” “that they conclude is appropriate”) provides for complete agency
27 discretion in determining whether to even consider—much less grant—a party’s IQA request for
28 correction.

1 The DOJ and DHS guidelines likewise provide no judicially manageable standards by
2 which to assess the propriety of their IQA determinations. The guidelines instead track the OMB
3 Guidelines and provide similar discretionary language regarding agency determinations of
4 requests for correction. *See* DOJ Guidelines (“Any corrective action will be determined by the
5 nature and timeliness of the information involved and such factors as the significance of the error
6 on the use of the information and the magnitude of the error. DOJ is not required to change, or in
7 any way alter, the content or status of information simply based on the receipt of a request for
8 correction.”); DHS Guidelines at 6 (“[DHS] Components need undertake only the degree of
9 correction that they conclude is appropriate for the nature and timeliness of the information
10 involved and explain such practices in their annual fiscal year reports to DHS.”).

11 Plaintiff asserts that the OMB Guidelines and relevant agency guidelines “set forth precise
12 and detailed definitions of the statute’s information quality watchwords: ‘quality’, ‘utility’;
13 ‘objectivity’; and ‘integrity’” that “provide[] meaningful standards for courts to apply to evaluate
14 whether an agency has properly reviewed a petition for correction.” (Dkt. No. 41 at 9, 21 (quoting
15 67 Fed. Reg. at 8459-60).) The Court disagrees.

16 Although the OMB and relevant agency guidelines contain defined terms, those terms
17 alone do not create judicially manageable standards by which a court can determine the propriety
18 of an agency’s decision regarding a petition for correction. Instead, the OMB Guidelines’ broad
19 language regarding an agency’s discretion in considering requests for correction demonstrates that
20 the application of such terms to a specific request is not a mechanical process but instead depends
21 upon the “nature and timeliness of the information involved.” *See* 67 Fed. Reg. at 8458 (providing
22 that agencies “are required to undertake only the degree of correction that they conclude is
23 appropriate for the nature and timeliness of the information involved”). And as previously
24 discussed, the DOJ and DHS Guidelines provide near verbatim discretionary language regarding
25 when correction is necessary. Such language does not lend itself to judicial review.

26 Plaintiff further argues that “the structure and purpose of the IQA provide an additional
27 standard against which the Court can consider Plaintiff’s APA claim.” (Dkt. No. 41 at 23 (citing
28 *Page v. Donovan*, 727 F.2d 866, 868 (9th Cir. 1984) (“Even if the statute is drawn broadly, review

1 is not precluded if the legislative history offers standards that a reviewing court can apply.”)).
2 Plaintiff asserts that it is implicit in the IQA “that agencies cannot exercise their discretion in a
3 manner that renders the rights of ‘affected persons’ illusory.” (*Id.* (citing 44 U.S.C. § 3516 note).)
4 As the Court previously concluded, however, the IQA creates no enforceable *legal* rights to
5 information or its correctness; thus, any procedural right created by the IQA’s directive that OMB
6 issue guidelines requiring federal agencies to “establish administrative mechanisms allowing
7 affected persons to seek and obtain correction of information,” *see* 44 U.S.C. § 3516 note, is not
8 tethered to a legal interest. If the IQA creates no enforceable legal right to information or its
9 correctness, then it follows that the “structure and purpose” of the IQA does not create judicially
10 manageable standards by which to judge an agency’s decision regarding a request for correction.

11 The Court’s conclusion that judicial review is precluded under § 701(a)(2) is in line with
12 other courts that have squarely addressed IQA-based APA claims and concluded that the merits of
13 such claims are not reviewable. *See, e.g., Harkonen v. U.S. Dep’t of Justice*, No. C-12-629 CW,
14 2012 WL 6019571, at *16 (N.D. Cal. Dec. 3, 2012) (“[T]he IQA and agency guidelines grant
15 sufficient discretion to the DOJ to preclude judicial review under the APA.”), *aff’d on other*
16 *grounds*, 800 F.3d 1143 (9th Cir. 2015); *Salazar*, 749 F. Supp. 2d at 1092-95 (finding IQA-based
17 APA claim precluded from judicial review under § 701(a)(2)); *Ams. for Safe Access v. U.S. Dep’t*
18 *of Health & Human Servs.*, No. C 07-01049 WHA, 2007 WL 4168511, at *4 (N.D. Cal. Nov. 20,
19 2007) (“[T]he IQA and OMB guidelines do not create a duty to perform legally required actions
20 that are judicially reviewable.”), *aff’d on other grounds*, 399 F. App’x 314 (9th Cir. 2010); *Salt*
21 *Inst. v. Thompson*, 345 F. Supp. 2d 589, 602 (E.D. Va. 2004) (finding judicial review under the
22 APA precluded on § 701(a)(2) grounds), *aff’d on other grounds sub nom. Salt Inst. v. Leavitt*, 440
23 F.3d 156, 159 (4th Cir. 2006); *In re Operation of the Missouri River Sys. Litig.*, 363 F. Supp. 2d
24 1145, 1175 (D. Minn. 2004) (same), *aff’d in part and vacated in part on other grounds*, 421 F.3d
25 618 (8th Cir. 2005).

26 The cases cited by Plaintiff do not counsel a different result. (*See* Dkt. No. 41 at 17, 19
27 (citing *Zero Zone, Inc. v. U.S. Dep’t of Energy*, 832 F.3d 654, 678 n.25 (7th Cir. 2016); *Harkonen*
28 *v. U.S. Dep’t of Justice*, 800 F.3d 1143, 1151 (9th Cir. 2015); *Prime Time Int’l Co. v. Vilsack*, 599

1 F.3d 678, 686 (D.C. Cir. 2010)).) In *Zero Zone*, the plaintiffs challenged the U.S. Department of
2 Energy (“DOE”) “decisionmaking process and substance of . . . final rules” regarding “the energy
3 efficiency of commercial refrigeration equipment.” 832 F.3d at 660-61. The plaintiffs argued that
4 the DOE’s rulemaking violated, in part, the Energy Policy and Conservation Act and the court
5 analyzed the action under the APA. *See id.* at 667-68. The plaintiffs also framed one issue, which
6 the court discussed as an “alternative” argument, “as a violation of the Information Quality Act.”
7 *Id.* at 678 n.25. The court noted, in a footnote:

8 [The plaintiffs] frame this issue as a violation of the Information
9 Quality Act. *See* 44 U.S.C. § 3516 note (a). However, “almost every
10 court that has addressed an Information Quality Act challenge has
11 held that the statute ‘creates no legal rights in any third parties.’”
12 *Miss. Comm’n on Env’tl. Quality v. EPA*, 790 F.3d 138, 184 (D.C. Cir.
13 2015) (quoting *Salt Inst. v. Leavitt*, 440 F.3d 156, 159 (4th Cir.
14 2006)). That being said, the APA still affords the petitioners the right
15 to bring this challenge.

16 *Id.* Plaintiff here cites *Zero Zone* for the proposition that “[m]ultiple Circuit Courts have
17 concluded that that IQA claims raised under the APA may be adjudicated.” (*See* Dkt. No. 41 at
18 17.) Nothing supports such an expansive reading of the *Zero Zone* footnote, however, which
19 contains that court’s lone reference to the IQA. It appears instead that the *Zero Zone* court
20 analyzed the particular issue characterized by the plaintiff as a violation of the IQA in the context
21 of the plaintiff’s overriding challenge to DOE’s rulemaking, which falls under the APA. Further,
22 and most importantly, the *Zero Zone* court did not do what Plaintiff asks the Court to do here:
23 reach the *merits* of an IQA challenge under the APA by deciding whether an agency’s
24 determination regarding a request for correction comports with the text of the IQA and its
25 implementing guidelines.

26 The Ninth Circuit’s decision in *Harkonen* is similarly unhelpful to Plaintiff. There the
27 plaintiff filed an IQA request for correction with DOJ regarding press releases it issued detailing
28 the plaintiff’s conviction for wire fraud. 800 F.3d at 1147. DOJ denied the plaintiff’s request
initially and on reconsideration, asserting that press releases were excluded from coverage under
the DOJ Guidelines. *Id.* The plaintiff filed suit under the APA, claiming that DOJ’s denial of his
request for correction under the IQA and “the exclusion of press releases from DOJ’s and OMB’s

1 [IQA] Guidelines” were arbitrary and capricious, an abuse of discretion, and contrary to law.” *Id.*
2 The district court granted the defendants’ motion to dismiss, noting that “[c]ourts that have
3 reviewed the IQA have uniformly found that it ‘does not create any legal right to information or its
4 correctness.’” 2012 WL 6019571 at *11 (collecting cases). The district court thus concluded that
5 there was no final agency action for purposes of an APA claim, and that judicial review was
6 precluded under 5 U.S.C. § 701(a)(2). *Id.* at *11-17.

7 On appeal, the plaintiff and defendants set forth the exact arguments at issue here;
8 specifically, the plaintiff asserted that “the IQA imposes an obligation on the DOJ to correct
9 information disseminated by the agency, and creates a right under the APA to judicial review of
10 DOJ decisions not to correct this information.” 800 F.3d at 1148. The defendants “argue[d] that
11 the IQA does not authorize courts to review the correctness of information disseminated by an
12 agency.” *Id.* The Ninth Circuit did not reach those arguments, however, and instead noted that its
13 “review must begin with the threshold question of whether OMB and DOJ had the authority to
14 exclude press releases from the coverage of the IQA guidelines.” *Id.* at 1149. In doing so, the
15 *Harkonen* court expressly did *not* address the issue presented here, noting that “[w]e have no
16 reason in this case to reach the broad question of whether the IQA confers upon a private
17 individual the right to seek judicial review of the correctness of all information published by the
18 government.” 800 F.3d at 1148. The court analyzed “[w]hether OMB’s and DOJ’s decisions to
19 exclude press releases from the coverage of the IQA guidelines were within their authority” using
20 the two-step test established by *Chevron, U.S.A., Inc. v. Nat. Res. Def. Council, Inc.*, 467 U.S. 837
21 (1984), and concluded that OMB and DOJ did have such authority and that the press release at
22 issue was properly excluded from coverage. *Id.* at 1149-51. Thus, the court did not reach the
23 merits of the plaintiff’s IQA-based APA claim but instead determined that the information at issue
24 did not fall under the IQA’s coverage.

25 Plaintiff’s reliance on *Prime Time* is similarly unavailing. There the plaintiff “sought
26 disclosure and correction under the IQA of the data that [the U.S. Department of Agriculture
27 (“USDA”)] used to calculate” its “quarterly assessments on tobacco manufacturers and importers”
28 pursuant to the Fair and Equitable Tobacco Reform Act (“FETRA”), 7 U.S.C. § 518d(b). 599

1 F.3d at 680, 685. USDA did not respond to the plaintiff’s IQA requests, and plaintiff filed suit
2 directly under the IQA and under the APA. *Single Stick, Inc. v. Johanns*, 601 F. Supp. 2d 307,
3 311-12 (D.D.C. 2009), *aff’d in part and rev’d in part*, *Prime Time Int’l Co. v. Vilsack*, 599 F.3d
4 678 (D.C. Cir. 2010). The district court dismissed the plaintiff’s “claim that USDA’s failure to
5 respond to requests for disclosure and ‘correction’ of the data underlying the assessments violated
6 the [IQA] . . . , ruling that the IQA did not vest any party with the right to disclosure and
7 correction and that USDA’s failure to respond did not constitute final agency action subject to
8 judicial review under the [APA].” 599 F.3d at 682.

9 On appeal, USDA argued that the FETRA assessments were excluded from IQA coverage
10 under both the OMB and agency guidelines because the assessments constituted “adjudicative
11 proceedings.” *Id.* at 685. The D.C. Circuit first determined that OMB properly “exercised its
12 discretion to exclude documents prepared and distributed in the context of adjudicative
13 proceedings” in its interpretation of the IQA. *Id.* at 685 (citing *Chevron*, 467 U.S. at 843). As to
14 the merits of the plaintiff’s IQA claim, the court determined that the underlying agency action—
15 FETRA assessments—were adjudicative proceedings and thus subject to APA review under the
16 Fair and Equitable Tobacco Reform Act, 7 U.S.C. § 518d(i), (j). *Id.* at 686 (concluding that the
17 plaintiff had “rights to an administrative appeal and judicial review”) (citing 5 U.S.C. § 551(7)
18 (defining “adjudication”) and 7 U.S.C. § 518d(i), (j)). In other words, the court did *not* conclude
19 that the IQA provides a right to review under the APA, but instead found that review is proper
20 under FETRA and the APA. *See also Salazar*, 749 F. Supp. 2d at 1096-1100 (concluding that
21 *Prime Time* does not support that “the IQA provides a right to judicial review” under the APA);
22 *Harkonen*, 2012 WL 609571, at *12 (“*Prime Time* does not support that . . . the court found there
23 was a right to review under the APA.”). The *Prime Time* court thus “affirm[ed] the dismissal of
24 the IQA challenge, although on a different ground than relied upon by the district court.” *Id.* at
25 686.

26 Simply put, Plaintiff cites no case in which a court has done what Plaintiff asks this Court
27 to do—adjudicate the merits of an IQA-based APA claim premised on an agency’s failure to grant
28 a petition for correction. Conversely, courts that have addressed the issue of APA claims

1 premised on alleged IQA violations have “uniformly found” that such claims are precluded from
2 judicial review. *See Harkonen*, 2012 WL 6019571 at *11 (collecting cases). That authority is
3 persuasive, and the Court follows it here.

4 In any event, as discussed below, even if the IQA’s implementing guidelines did provide
5 judicially manageable standards, Plaintiff’s claim would still fail to state a cause of action under
6 the APA.

7 **2. No “Final Agency Action” for Purposes of an APA Claim**

8 As previously discussed, the APA provides for judicial review of “final agency action for
9 which there is no other adequate remedy in a court.” 5 U.S.C. § 704. Determining whether an
10 agency action is “final” is a two-step process. *Bennett v. Spear*, 520 U.S. 154, 177-78 (1997).
11 The action must first “mark the consummation of the agency’s decisionmaking process.” *Id.*
12 (internal quotation marks and citation omitted). Next, “the action must be one by which rights or
13 obligations have been determined, or from which legal consequences will flow.” *Id.* at 178
14 (internal quotation marks and citation omitted). In general, “administrative orders are not final
15 and reviewable unless and until they impose an obligation, deny a right, or fix some legal
16 relationship as a consummation of the administrative process.” *Ukiah Valley Med. Ctr. v. FTC*,
17 911 F.2d 261, 264 (9th Cir. 1990) (internal quotation marks and citation omitted). Defendants
18 argue that Section 704 forecloses judicial review of Plaintiff’s IQA claim because Defendants’
19 decisions regarding Plaintiff’s requests for correction are not “actions from which legal
20 consequences will flow.” (Dkt. No. 40 at 30.) The Court agrees.

21 Plaintiff asserts that Defendants’ “final denials determined rights and obligations” because
22 the IQA and its implementing guidelines confer a procedural right that entitles petitioners to
23 ““seek and obtain correction”” of disseminated information “that is not of sufficient ‘quality,’
24 ‘objectivity,’ ‘utility,’ or ‘integrity.’” (Dkt. No. 41 at 24 (quoting 44 U.S.C. § 3516 note
25 (b)(2)(B))). Plaintiff fails to show, however, that a procedural right to petition for correction of
26 information is tethered to any legal consequences or obligations that flow from Defendants’
27 denials of Plaintiff’s requests for correction. Indeed, courts have rejected similar arguments that
28 the IQA and its implementing guidelines implicate legal rights or cause legal consequences for

1 purposes of an APA claim, finding instead that the IQA “does not create any legal right to
2 information or its correctness.” *See, e.g., Harkonen*, 2012 WL 6019571, at *11 (“Courts that have
3 reviewed the IQA have uniformly found that it ‘does not create any legal right to information or its
4 correctness.’”) (collecting cases); *Salazar*, 749 F. Supp. 2d at 1103 (finding that “[t]he IQA creates
5 no enforceable legal rights at all”); *Salt Inst. v. Leavitt*, 440 F.3d 156, 159 (4th Cir. 2006)
6 (affirming dismissal of IQA-based APA claim and finding the IQA “does not create any legal right
7 to information or its correctness”). Plaintiff cites no case in which a court has held that an
8 agency’s final denial of an IQA request for correction constitutes final agency action for APA
9 purposes.

10 To the extent that Plaintiff was entitled to petition for the correction of information under
11 the IQA and its implementing guidelines, the DOJ and DHS afforded Plaintiff that procedural
12 right and issued determinations on Plaintiff’s petitions. Plaintiff points to no language in either
13 the IQA or its implementing guidelines suggesting that Defendants’ IQA determinations implicate
14 a legal right or obligation for purposes of an APA claim. *See Harkonen*, 2012 WL 6019571, at
15 *12 (finding no final agency action for APA purposes because “the denial of Plaintiff’s request for
16 correction did not deny him a legal right.”). Absent a showing that Defendants’ IQA
17 determinations give rise to legal consequences, Plaintiff fails to allege final agency action for
18 purposes of an APA claim.

19 Plaintiff argues in a footnote that because it “raises procedure-based injuries, and not a
20 right to informational correctness, the cases Defendants cite to establish that the IQA does not
21 create a ‘legal right to information or its correctness’ are off base.” (*See* Dkt. No. 41 at 16 n.6
22 (citing *Salt Inst.*, 440 F.3d at 159; *Harkonen*, 2012 WL 6019571, at *11).) Despite that assertion,
23 however, the relief sought by Plaintiff’s complaint demonstrates that Plaintiff’s claim is premised
24 on a purported right to informational correctness under the IQA that *Salt Inst.* and the district court
25 in *Harkonen* squarely rejected. The complaint seeks declarations “that the Report disseminates
26 information that fails the standard of quality required of federal agencies” and “that Defendants
27 violated the IQA, its implementing Guidelines, and the APA,” and an order requiring “Defendants
28 to expressly retract or correct the Report and to cease dissemination of the Report.” (Dkt. No. 1 at

32.) Plaintiff’s opposition reiterates that Plaintiff’s injury would be redressed by “[a] court order declaring that the Report fails to meet baseline information quality standards, that Defendants violated the IQA and the APA, and *ordering them to correct or retract and cease disseminating the Report.*” (Dkt. No. 41 at 16 (emphasis added).) Simply put, Plaintiff’s complaint does not seek redress for any “procedure-based injuries” but instead seeks correction of information. Such relief is unavailable under the APA.

CONCLUSION

For the reasons set forth above, the Court GRANTS Defendants' Rule 12(b)(6) motion to dismiss with prejudice to the extent Plaintiff challenges Defendants' refusal to correct the Report. Alleged violations of the IQA arising out of agency determinations regarding Plaintiff's requests for correction and reconsideration cannot form the basis of an APA claim. The Court is inclined to dismiss Plaintiff's complaint without leave to amend as Plaintiff's opposition does not suggest that Plaintiff could amend its complaint to correct any of the deficiencies noted by Defendants in their motion and the Court is not aware of how it could. Nonetheless, because the issue was not explored at oral argument, the Court will grant Plaintiff 30 days leave to file an amended complaint, provided Plaintiff believes in good faith that its amendment addresses the issues raised by the Court's Order. If Plaintiff instead simply disagrees with the Court's ruling, then the next steps are for the Court to enter judgment and for Plaintiff to pursue an appeal should it so choose. Accordingly, should no amended complaint be filed within 30 days of this Order, the Court will enter judgment.

This Order disposes of Docket No. 40.

IT IS SO ORDERED.
